Jennie L. Lancaster, Chief Deputy Secretary

RE:

Inmate Medical Cost Containment

Volume of services by contracted and non-contracted community medical

providers [Section 18.10(d) – Session Law 2011-145]

DATE:

November 1, 2011

Section 18.10. (d) of House Bill 200 (Session Law 2011-145) directs the Department to report to the Joint Legislative Commission on Governmental Operations no later than November 1, 2011, and quarterly thereafter on:

- (1) The volume of services provided by community medical providers that can be scheduled in advance and, of that volume, the percentage of those services that are provided by contracted providers; and
- (2) The volume of services provided by community medical providers that cannot be scheduled in advance and, of that volume, the percentage of those services that are provided by contracted providers.

To ensure that correct information relative to Section 18.10(d) is reported, the Department sought clarification from the Fiscal Research Division. It is our understanding that the volumes of services referenced are for hospitalizations.

The following data is for hospitalizations for inmate admission dates on or after July 1, 2011 to September 30, 2011.

During this time period there were 436 inmate hospital admissions statewide. Of these 436 admissions, 88% (382) were emergent and 12% (54) were scheduled. Of the 382 emergent admissions, 53% (201) were to Non-Contracted Hospitals and 47% (181) were to Contracted Hospitals. Of the 54 scheduled admissions, 33% (18) were to Non-Contracted Hospitals and 67% (36) were to Contracted Hospitals.

Figure 1 below shows the distribution of emergent and scheduled hospital admissions from July 1, 2011 though September 30, 2011.

Department of Correction staff members are available if further information is requested.

Figure 1: Distribution of Hospital Admissions July 1, 2011 to September 30, 2011 (Contracted Hospitals in Bold)
